Dear Georgia School Board Association:

As a community member and business representative I was privileged to attend two sessions of the “Vitamins R(Reading) and L(Literacy) Project in Twiggs County. I have observed first hand the positive impact that this program is having on the students and their parents. As a great-grandmother of six under the age of five, I was surprised and delighted to learn a few things myself! The need for this grant in the Twiggs County community cannot be overstated. Engaging parents while providing educational and nutritional support in a welcoming atmosphere can be life changing for entire families.

KaMin has supported numerous educational programs for the school system. This program is the first one focusing on such young children, and again from first hand observation, I can say it has a very positive impact and we support the effort strongly! In a tangible show of support, our company provided box lunches for all parents and student helpers in June and July.

As a major employer in Twiggs County, KaMin wishes and needs to hire well qualified employees. We see this grant program as getting children – and equally importantly their parents – prepared for a lifetime of learning. I see this grant program as a vital step in preparing children and families for school and setting them on a good path to becoming a part of the labor pool our company needs.

Kind regards,

A handwritten signature in cursive script that reads 'Sherri Wood'.
